

Health and Vaccine Requirements

Prior to attending Puppy Start Right Preschool the minimum health and vaccine requirements are:

1. Recent physical examination by a veterinarian including a documented negative fecal exam.
2. At least one Distemper-Adenovirus 2-Parvo (DAP) vaccine or equivalent administered by a veterinarian a minimum of 7 days prior to starting class
3. Bordetella vaccine (preferably an intra-nasal vaccine) a minimum of 7 days prior to starting class
4. Proactive de-worming for roundworms and hookworms (regardless of fecal results)
5. Appropriate parasite prevention has been started (heartworm, intestinal, flea, tick)

Other considerations:

1. Puppy should be healthy
 - a. No vomiting or diarrhea
 - b. Bright and alert
 - c. Free of any coughing, sneezing, or nasal or eye discharge (yellow or green discharge)
 - d. Free of skin lesions or hair loss
2. Puppy should be free of fleas/ticks (check with your veterinarian regarding safe and appropriate treatments and preventives for puppies)
3. Your veterinarian considers your puppy healthy and free of any contagious diseases
